GENERAL

I. Adaption of layout to higher screen resolution (1/3)

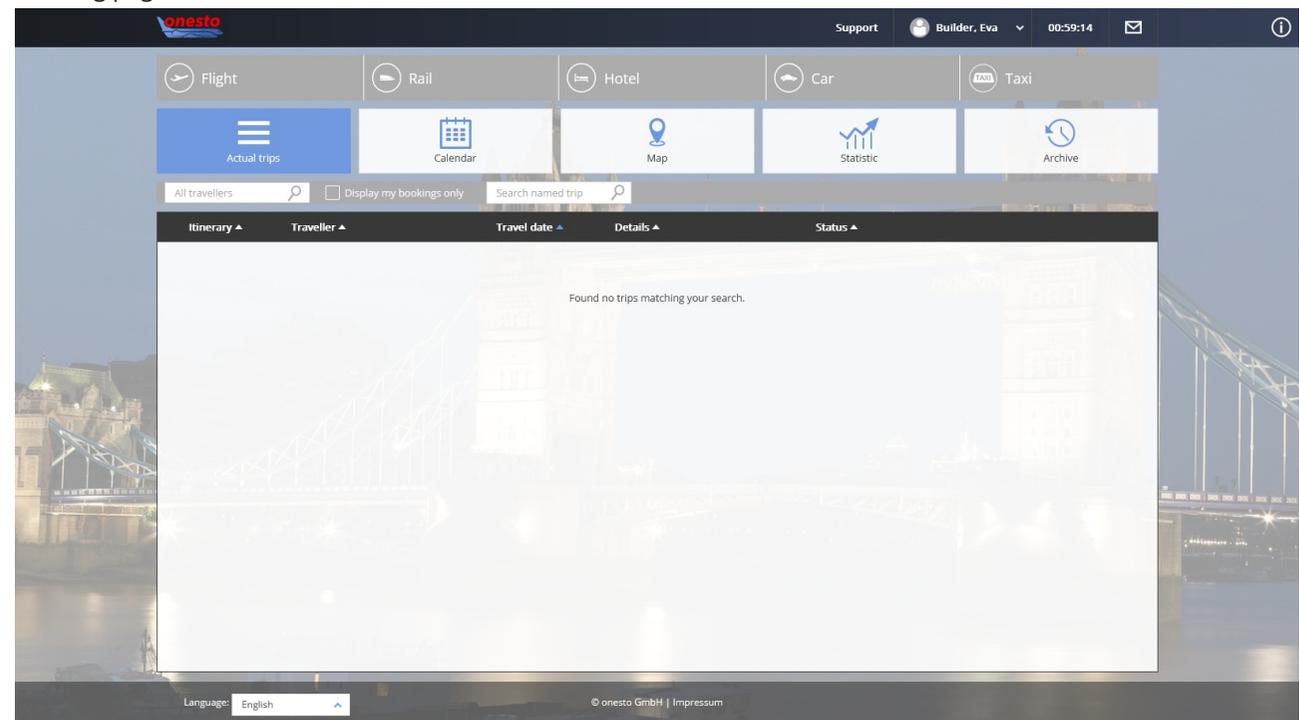

Administration The setting is automatic and cannot be set administratively.

Description "ID - 12311":

With this release our new design will display on a wider screen. Thus, the information will be more clearly arranged and overlong texts e.g., user names or names of tariffs will be displayed in full.

Landing page:

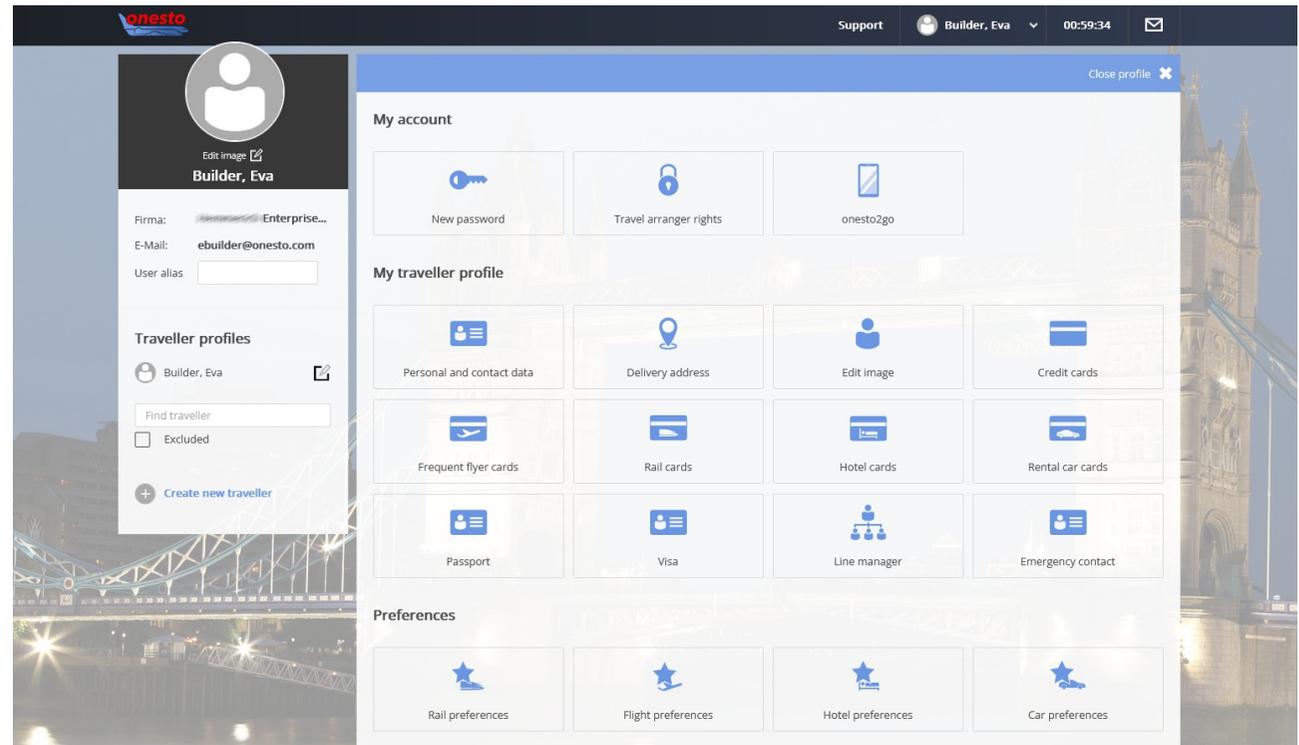

GENERAL

I. Adaption of layout to higher screen resolution (2/3)

Administration The setting is automatic and cannot be set administratively.

User profile:

GENERAL

I. Adaption of layout to higher screen resolution (3/3)

Administration The setting is automatic and cannot be set administratively.

Result list for rail:

The screenshot displays the onesto rail booking interface. At the top, the user is identified as 'Builder, Eva' with a booking reference of '01189743'. The search criteria are 'Rail' from 'Koln Hbf (De)' to 'Amsterdam Central (NL)' on 'Tue, 07.11.2023' at '07:00'. The search results show a train 'ICE ICE 220' departing at '08:41' from 'KOELN HBF' and arriving at '11:29' at 'AMSTERDAM C.'. The fare details are as follows:

Rebookable	Cancellable	Fare	Total price
✗	✗	Super Sparpreis Europa 2nd Class	19.90 €
✗	✓	Sparpreis Europa 2nd Class	24.90 €
✗	✓	Flexpreis Europa 2nd Class	75.70 €

Additional details include 'CO₂ 5.2 kg' and a '2nd class from 19.90 €' / '1st class from 39.90 €' summary. A filter panel on the left allows for filtering by origin, destination, and price (19.90 € - 137.70 €).

We recommend a minimum horizontal resolution of 1280 Pixel.

GENERAL

II. Adjustment of administration in our new layout to higher screen resolution (1/3)

Administration The setting is automatic and cannot be set administratively.

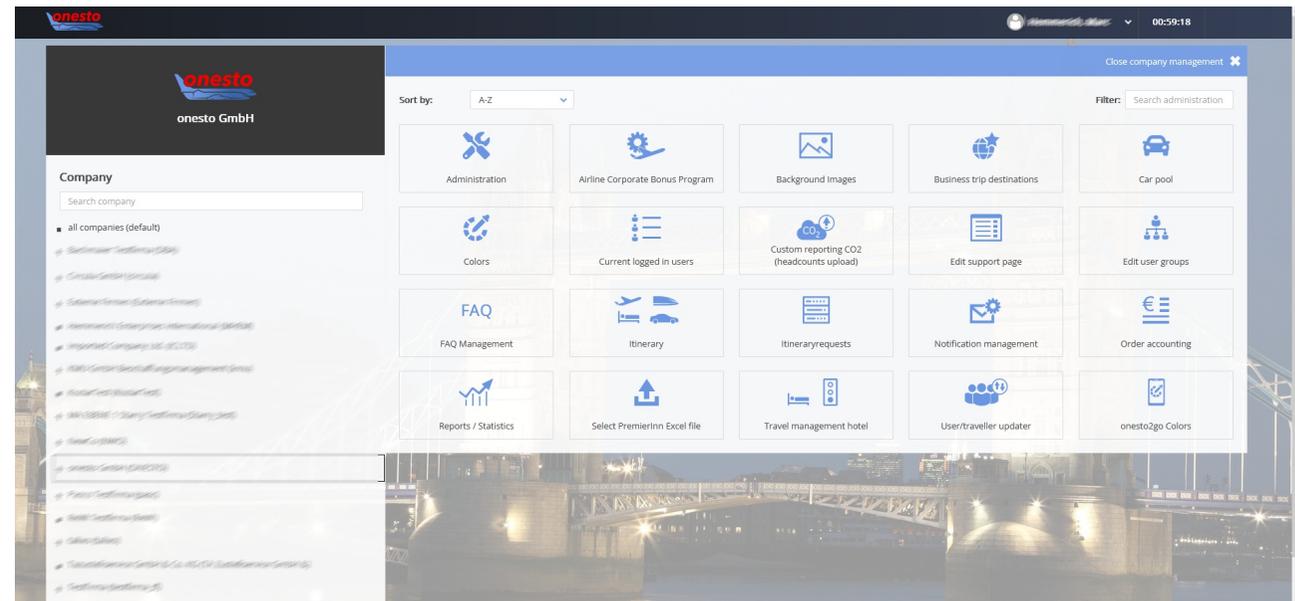

Description "ID - 12310":

The layout of the administration was adjusted to 1280 pixel horizontally. This adjustment allows five instead of three tiles per row.

As an extra the company selection will be displayed in different ways according to the resolution:

With HD resolution the company selection appears on the left.

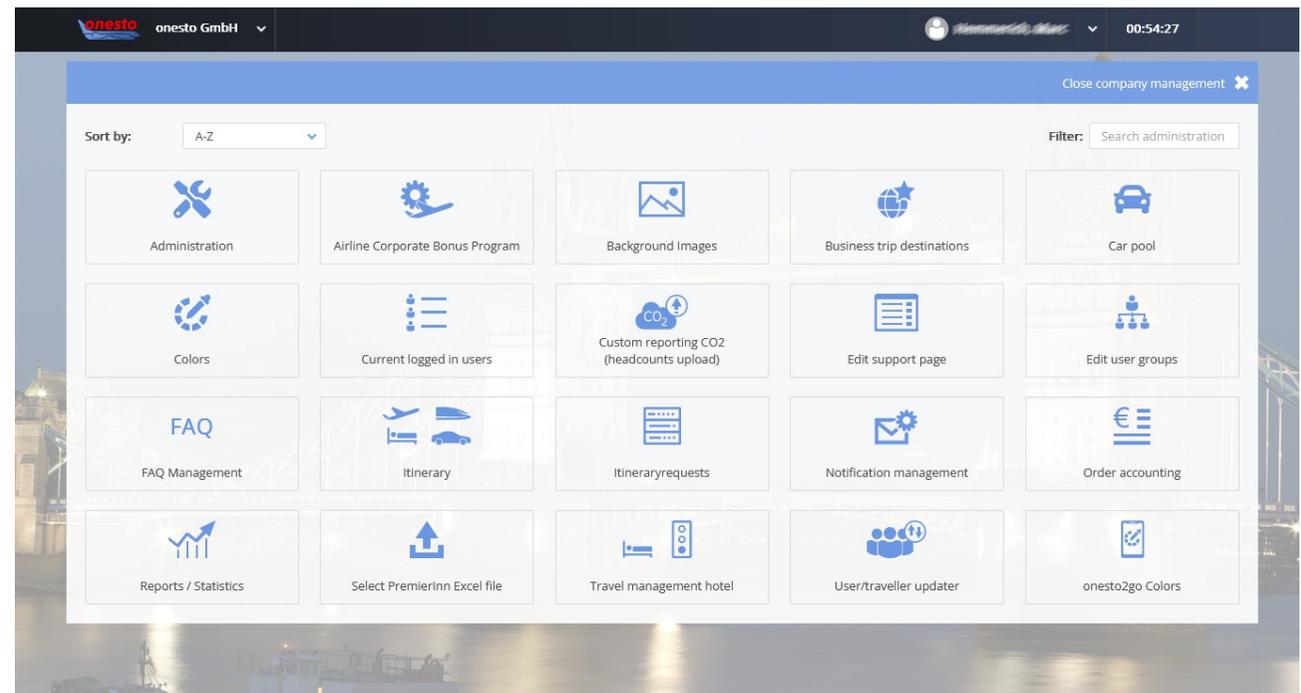

GENERAL

II. Adjustment of administration in our new layout to higher screen resolution (2/3)

Administration The setting is automatic and cannot be set administratively.

If the resolution is smaller, the company selection is located as a drop-down in the menu bar.

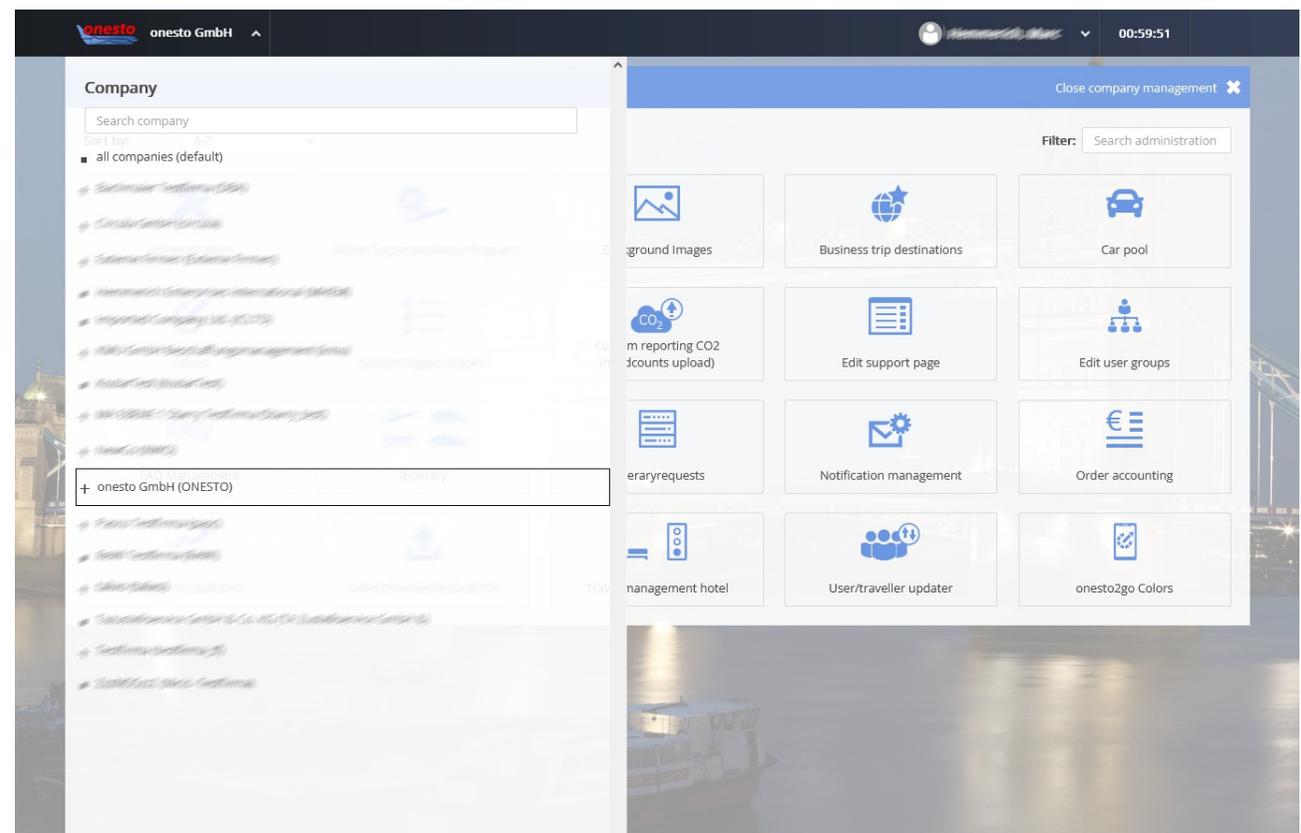

GENERAL

II. Adjustment of administration in our new layout to higher screen resolution (3/3)

Administration The setting is automatic and cannot be set administratively.

Menu components that are not required for administration are removed from the menu bar when administration is open e.g., messages, contact.

GENERAL

III. Context-sensitive help - Permanent display

Administration The setting is automatic and cannot be set administratively. 

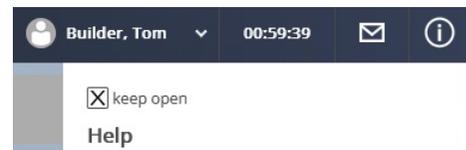

Description "ID - 12152":

We have adapted the layout and functionality of the context-sensitive help. From now on you will find the stored texts under the "i" in the header of the onesto system.

In addition, it is now possible to display the help page permanently. To do this, the user must tick "display permanently" once. The setting is automatically saved in the user's profile and applies to future registrations.

We have also adjusted the available size of the field so that the need to scroll is minimized.

GENERAL

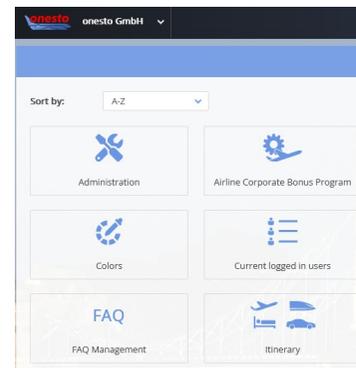

IV. Manage FAQ in new layout (1/2)

Administration The setting is automatic and cannot be set administratively.

Description "ID - 11716":

With the appropriate Travel Management authorization, it is now possible to view the FAQ in the new Customer Administration to manage:

Here you can add and save your questions and answers.

CSV import CSV export Add POI

If there is a large amount of data, the frequently traveled business travel destinations can be imported via a CSV file or exported for editing.

This change only affects systems that previously had this function in old layout.

GENERAL

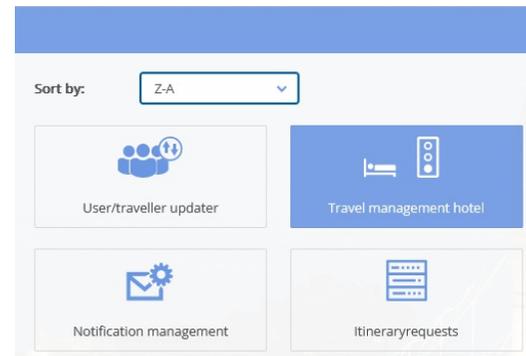

VI. Travel Management Hotel in new layout (1/2)

Administration The setting is automatic and cannot be set administratively.

Description "ID - 11724":

With the appropriate Travel Management authorization, it is now possible to set price limits for hotels as well and to define the associated traffic light.

The rules can be set per country and location. The spelling of the locations must correspond to the spelling of the chosen hotel provider. It has proven to be useful to use coordinates (selection on the map) and radius so that different spellings of locations do not have to be stored separately.

GENERAL

VI. Travel Management Hotel in new layout (2/2)

Administration The setting is automatic and cannot be set administratively.

▲	Section	Documents

These appear on the support page.

This change only affects systems that previously had this function in old layout.

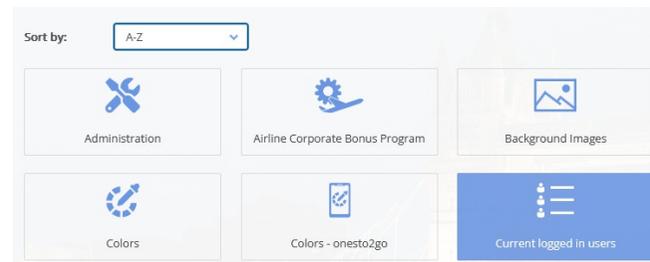

GENERAL

VIII. Overview of logged in users in new layout

Administration The setting is automatic and cannot be set administratively. 

Description "ID - 11723":

With the appropriate travel management authorization, you can see an overview of all logged in users and can log the user out if necessary. Blocked trips/processes can so become free to edit.

The overview of current users is now available to you in new layout:

Manage company > Current logged in users

GENERAL

IX. Profile management in new layout (3/3)

Administration The setting is automatic and cannot be set administratively. 

- Find and reactivate deactivated/locked profiles:

The screenshot shows two panels. The left panel, titled 'Traveller profiles', lists several profiles. The 'Builder' profile is highlighted with a blue border and has an 'Excluded' checkbox checked. The right panel, titled 'Administration', contains a grid of settings cards: 'Travel arranger rights' (locked icon), 'Userrights' (gear and lock icon), 'Enable profile' (person and lock icon, highlighted in blue), 'Rail TM settings' (gear icon), 'Flight TM settings' (gear icon), and 'Hotel TM settings' (gear icon).

- Downloading saved profile and travel data in accordance with GDPR for your own profile. The function is optional and can be activated by your supporting travel agency.

The screenshot shows the 'My traveller profile' section with a grid of options: 'Personal and contact data', 'Delivery address', 'Edit image', 'Credit cards', 'Frequent flyer cards', 'Rail cards', 'Hotel cards', 'Rental car cards', 'Passport', 'Visa', 'Line manager', and a large blue 'Download' button with a download icon.

This change only affects systems that previously had this function in old layout.

GENERAL

X. Report company data - column addition

Administration The setting is automatic and cannot be set administratively.

Description "ID - 12255":

We have supplemented our standard "Company Data" report and display now the stored customer numbers for the following providers:

- Rail
- Flight
- Avis
- Enterprise
- Europcar
- Hertz
- National
- Sixt
- booking.com
- CRC
- eHotel
- HRS
- Premier Inn

If a company does not have its own customer number and inherits it from the parent company, the number is also marked with an asterisk "*".

RAIL

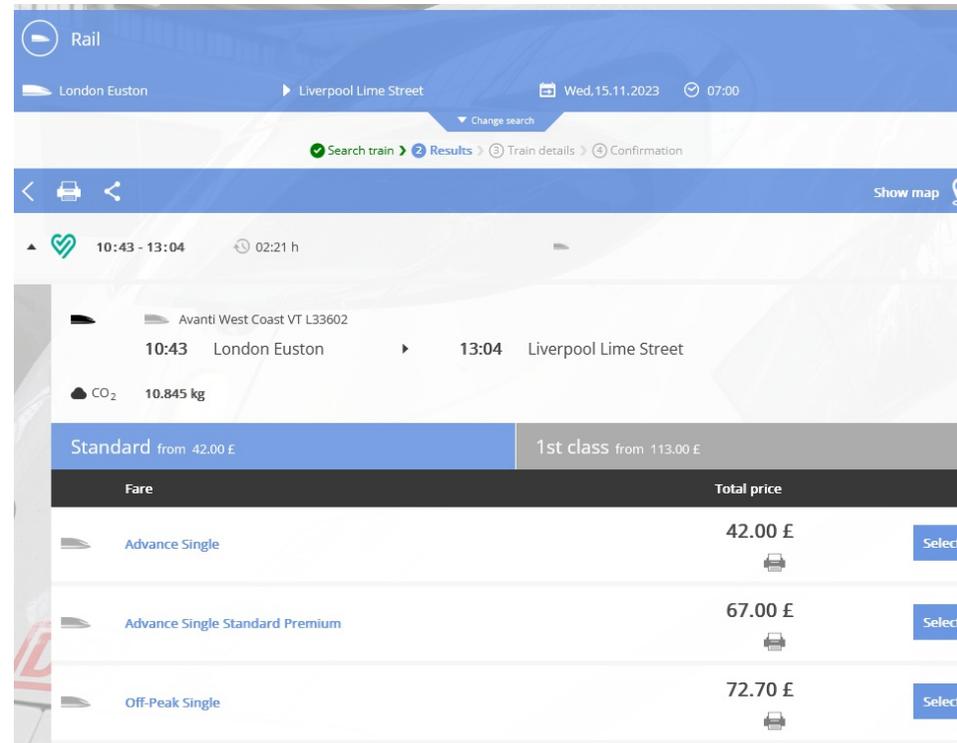

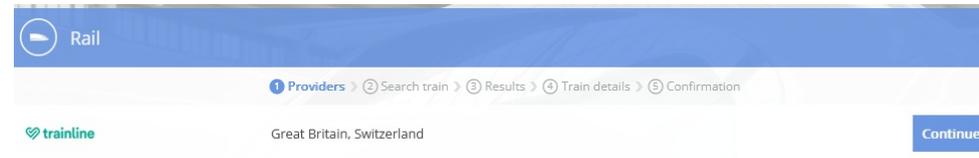

I. Announcement of Trainline Integration (1/2)

Administration If you want to use this functionality please get in touch with your onesto contact. 

Description "ID - 10146":

With this release and after successful certification, you have access to the provider Trainline in addition to existing rail providers.

The first two countries planned for connection via Trainline are Great Britain and Switzerland.

RAIL

I. Announcement of Trainline Integration (2/2)

Administration If you want to use this functionality please get in touch with your onesto contact.

It is possible to add other countries, such as Italy and Spain, via Trainline.

The prerequisite for use is your own company contract with Trainline or the partner travel agency Trainline contract.

Billing is currently carried out via the direct contract or the travel agency.
Billing via Airplus is being developed by Trainline. We will inform you separately about this, as soon as it is available.

As soon as this development is completed, the following rail providers will be available in onesto:

Deutsche Bahn NVS, Deutsche Bahn BIBE for Germany

ÖBB for Austria

České dráhy for Czech Republic

benerail for France, Belgium, the Netherlands and Eurostar

Trainline for Great Britain and Switzerland

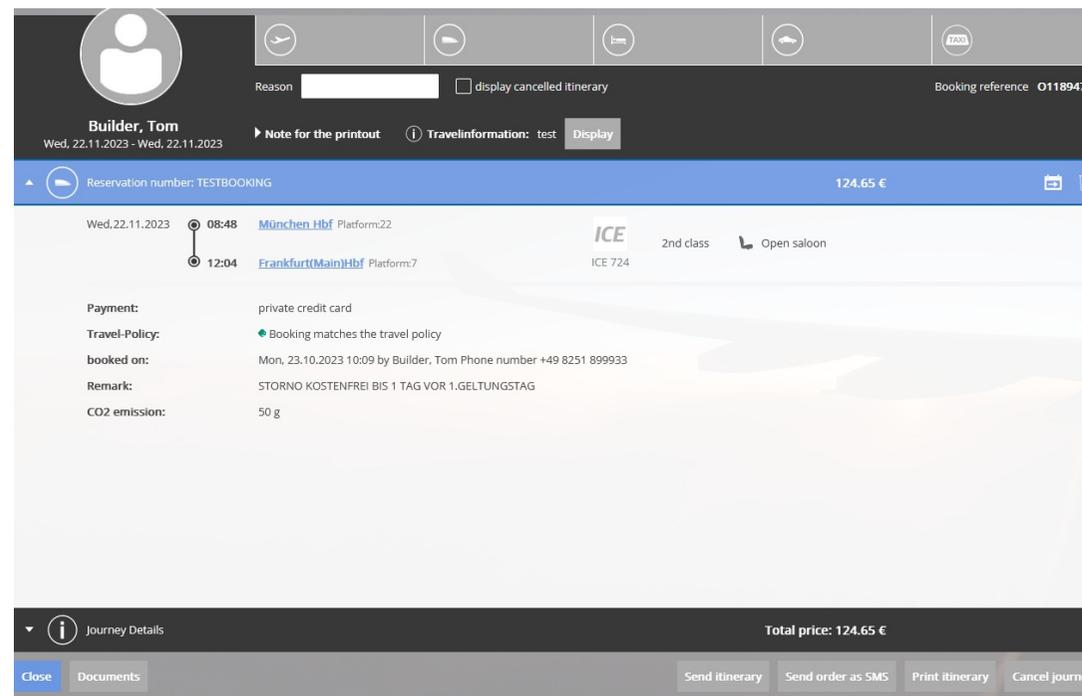

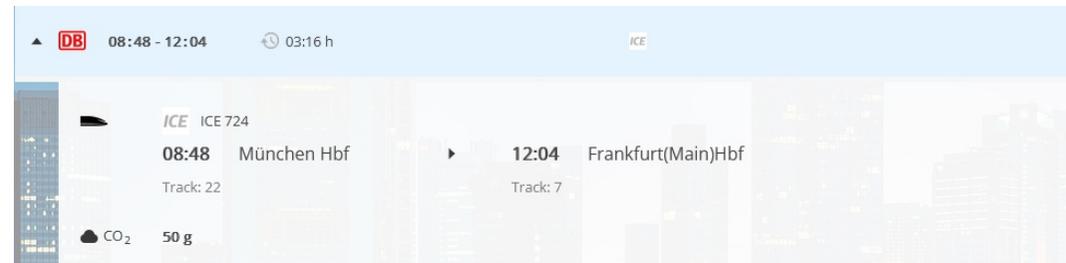

II. Changed display for low CO₂ values (1/2)

Administration The setting is automatic and cannot be set administratively.

Description "ID - 11859":

The CO₂ information now offers graded information in grams or kilograms, showing the emissions of the various means of travel more precisely.

RAIL

II. Changed display for low CO₂ values (2/2)

Administration The setting is automatic and cannot be set administratively.

RAIL

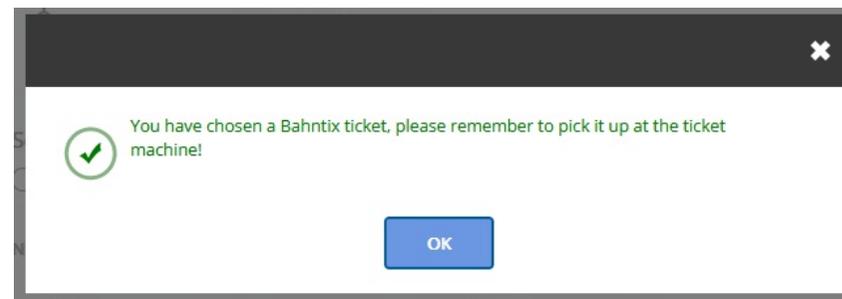

III. Note when selecting ticket type "BahnTix"

Administration The setting is automatic and cannot be set administratively. 

Description "ID - 12004":

Deutsche Bahn's NVS interface only offers the Ticket type "Bahntix" for certain services (e.g. City Mobile use). In order to specifically point this out to the user during booking, a message now appears in corresponding pop-up.

Type of ticket:

This information is also displayed in the system immediately after booking - as well as on the PDF travel plan.

Thu, 30.11.2023	07:46	München Hbf Platform:12	IC	2nd class
	09:59	Stuttgart Hbf Platform:8	IC 1296

Ticket type: Bahn-Tix: You have chosen a Bahntix ticket, please remember to pick it up at the ticket machine!

RAIL

IV. Thalys is now Eurostar

Administration The setting is automatic and cannot be set administratively. 

Description "ID - 12150":

The transition from Thalys to Eurostar has been completed since October 1st and can be accessed as usual via Reservation system Amadeus and can be booked in onesto. These connections are now displayed with the new Eurostar's uniform logo.

Provider selection:

Eurostar in Germany, France, Belgium, Netherlands, England

Continue

Train connection:

Thalys THA9448

12:42

Köln Railway

▶

14:35

Brussels Midi Stn

Eurostar connections can also be booked via the benerrail interface as an alternative to the reservation system.

FLIGHT

I. Amadeus NDC[X] Extensions

Administration If you want to use this functionality please get in touch with your onesto contact.

Description "ID - 12359":

The airlines Air France and British Airways are now also available via Amadeus NDC[X].

In addition, the "Flight Parking" function can now also be used in combination with NDC[X].

FLIGHT

II. Display of separate tickets in bookings

Administration If you want to use this functionality please get in touch with your onesto contact. 

Description "ID - 7007":

Offers with separate tickets for outbound and inbound flights can now be added to the selection list with a new symbol.

Otherwise, the return flight may not be free of charge, especially for fares that cannot be rebooked or canceled if the outbound flight is canceled by the airline. Are return flights in one ticket the entire ticket can usually be canceled.

The screenshot displays a flight booking summary for a round trip. It features two flight segments, each with its own airline logo and aircraft information. The first segment is a British Airways flight (BA947) from Munich to London, and the second is a Lufthansa flight (LH2477) from London to Munich. A CO₂ emissions icon and value (380 kg) are shown below the flights. A note at the bottom states that two independent tickets will be issued for this offer.

Airline	Flight Number	Aircraft	Origin	Destination	Terminal
British Airways	BA947	AIRBUS INDUSTRIE A320-212	Munich MUC	London LHR	Franz Josef Strauss, Terminal 1
Lufthansa	LH2477	AIRBUS INDUSTRIE A320-212	London LHR	Munich MUC	Heathrow Airport, Terminal 2

CO₂ 380 kg

Two independent tickets will be issued for this offer.

HOTEL

I. HRS PAY

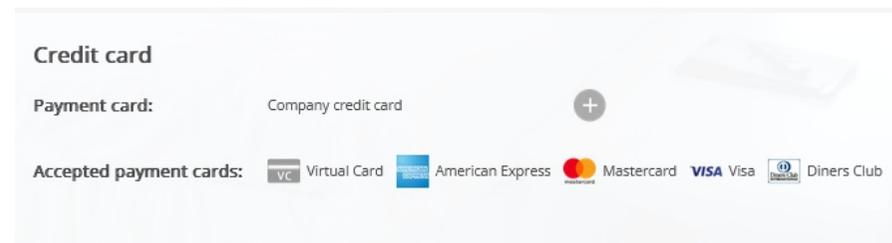

Administration If you want to use this functionality please get in touch with your onesto contact. 

Description "ID - 11842":

HRS offers - in addition to the existing billing processes - a new payment process: so-called HRS PAY.

To set it up in onesto, you need the PaymentConfigurationID from your HRS contact.

In the booking process, hotels that allow payment via HRS Pay are marked with the new "Virtual Card" icon:

HOTEL

II. Filtering out offers with "Payment by booking.com"

Administration If you want to use this functionality please get in touch with your onesto contact.

Description "ID - 12369":

Since the beginning of August, booking hotel rates without on-site payment options must be made through the provider booking.com with a credit card and 3D Secure procedures. If this is not desired these rates can be specifically filtered out.

RENTAL CAR

I. Car Fleet return page additional comments field

Administration The setting is automatic and cannot be set administratively.

Description "ID - 12072":

When you use the takeover and return pages for the onesto car fleet management, you now have access to an additional field for entering the fuel costs.

The screenshot shows the 'Return car' form in the onesto system. The form is titled 'Return car' and has a language dropdown set to 'English'. The vehicle information is 'AIC-XX 33 (Parking place), 123 km'. The 'New Total km' field is a dropdown menu showing '0 km driven'. There are two checkboxes: 'Fuel Costs (€)' and 'Defect / damage to the vehicle'. The 'Existing Damage(s):' field contains the text 'Steinschlag vorne Windschutzscheibe'. At the bottom, there are 'Back' and 'Next' buttons.

Vehicle	AIC-XX 33 (Parking place), 123 km	
New Total km	<input type="text" value="0 km driven"/>	(0 km driven)
<input type="checkbox"/> Fuel Costs (€)	<input type="text"/>	
<input type="checkbox"/> Defect / damage to the vehicle		
Existing Damage(s):	Steinschlag vorne Windschutzscheibe
