## GENERAL

### I. Additions to profile management in the new layout (1/5)

**Administration** The setting is automatic and cannot be set administratively. 

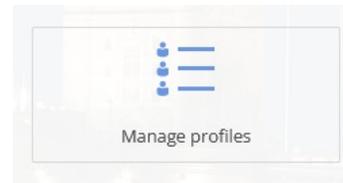

#### Description „ID - 12678“:

Further adjustments have been made to the new layout in the area of profile management:

#### Pull-down menu for administrators

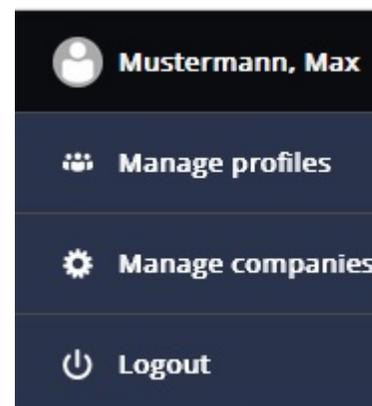

When clicking on the Profile Management menu item users with administrative rights can access an advanced search function. All other users will continue to be directed to their own profile. The existing search function on the left side is also still available to all users.

The extended search function can also be accessed via the company administration:

Clicking on the profile name always takes all users to their own profile.

For better visualization, the “Profile Management” and “Company Management” areas now also have an icon:
