FLIGHT

II. Price Limits Changes For The Miles & More Process

Functionality Area	Flight Booking
New Functionality	Miles & More Booking Process Change

Description:

The definition used so far for the price limits starting with, a check on premium tickets should take place, was changed. Now only the net price will be considered.

In the future, in case of one way bookings the half of the net price will be considered.

 RAIL

I. Foreign Rail Providers Extension

Functionality Area	Rail Booking	
New Functionality	Further Rail Providers	

Description:

onesto offers the possibility to display various rail providers of different countries, which are not bookable in onesto. The user can select the respective provider by clicking on the rail tab. One jumps afterwards directly to the portal of the provider. A booking data exchange does not take place in this case.

The following providers can now be configured in onesto:

oebb	snCF	thalys	cd
amtrak	eurostar	renfe	zssk
sbb	sncb	thetrainline	izy
trenitalia	westbahn	via-rail	italotreno

The next providers are coming now new hereto:

	Netherlands	Continue
	Denmark	Continue
	Sweden	Continue
	Norway	Continue

RAIL

II. NVS Rail Card Order Extension

Functionality Area	Rail Card Order via NVS	
New Functionality	Old Bahn Card Transmission And Registration To bahn.bonus Program	

Description:

As long as a previous rail card exists and it is saved in onesto, this will be displayed and transmitted to DB.

In case of a rail card order via NVS, the DB News letter and the bahn.bonus program will automatically be activated.

Please pay attention to the fact that, a rail card order via NVS is only possible using a company credit card and a BMIS number.

RENTAL CAR

I. Truck And Van Booking

Functionality Area	Car Rental	
New Functionality	Booking Of Truck And Van	

Description:

Supplementary to the providers Hertz, Enterprise and Avis, it is now possible to book trucks/vans at the providers Europcar, Sixt and via onesto pool car management.

The cars will automatically be displayed in the category „vans“.

Transporter

	Mercedes-Benz Vito	4,24 €	0.1 km	102.55 €		Select
	IVECO Daily oder Mercedes-Benz Sprinter bis 3.5t KURZ	4,24 €	0.1 km	109.88 €		Select
	Mercedes-Benz Sprinter oder IVECO Daily bis 3.5t LANG	4,24 €	0.1 km	118.33 €		Select
	VW Crafter	4,24 €	0.1 km	128.82 €		Select
	MAN 7.49t (Koffer mit Hebebühne)	4,24 €	0.1 km	166.80 €		Select
	IVECO Daily 7.2t (Koffer mit Hebebühne)	4,24 €	0.1 km	166.80 €		Select

RENTAL CAR

II. Driver Profile Update At Europcar

Functionality Area	Car Rental Booking	
New Functionality	Customer Number Transmission At Europcar	

Description:

In order to correctly assign the driver profile to a certain company at Europcar, the company's customer number can now be saved in the driver's profile at Europcar.

The data transmission is realised by onesto. As soon as an Europcar driver Id is saved in the onesto profile, onesto will transmit after the booking, the actual customer number of the company directly to the Europcar driver profile.

RENTAL CAR

III. Birthday Transmission To Car Rental Provider

Functionality Area	Car Rental Booking	
New Functionality	Birthday Transmission To Car Rental Provider	

Description:

Supplementary to the providers Enterprise, National, Flinkster and Megadrive, the birthday of the traveller will automatically be transmitted for bookings to Sixt, Hertz, Europcar and Avis. It is assumed that, the birthday is previously saved in the traveller profile.

The car rental providers need this information, in order to offer the price display in onesto, according to age surcharges, if applicable.

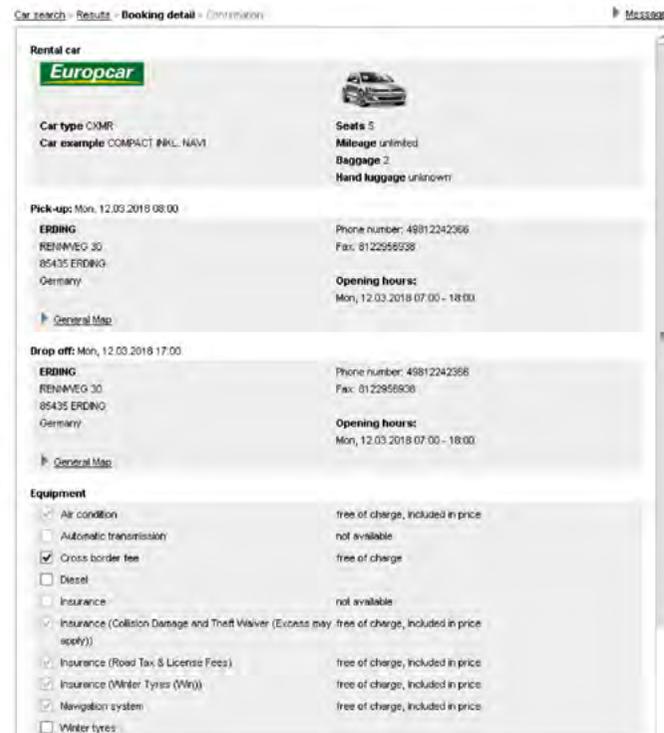

RENTAL CAR

IV. Booking Of Cross Border Fee At Europcar

Functionality Area	Car Rental	
New Functionality	Booking Of Cross Border Fee At Europcar	

Description:

Europcar offers the possibility to book a cross border fee. This can now be selected during the online booking and booked according to the agreed conditions with Europcar.

RENTAL CAR

V. Hide Blocked Cars In The Car Pool Management

Functionality Area	Car Pool Management	
New Functionality	Hide Blocked Cars	

Description:

Starting with this release, cars, which need to be blocked for a longer period (e.g. garage, fleet change, etc), can be hidden from the booking overview.

RENTAL CAR

VI. Traffic Light Colour In Percent For Car Rental

Functionality Area	Car Rental Booking	
New Functionality	Configurable Price Limits In Percent	

Description:

The existing travel management settings were now extended, so that the traffic light settings can be entered also as percentage, not only in €.

The Netherlands

Belgium

Luxembourg

France

Spain

Monaco

Austria

Italy

HOTEL

I. Fixed Phone Number And E-Mail Address Transmission To Hotel Providers

Functionality Area	Hotel Booking
New Functionality	Contact Data Transmission

Description:

In order to avoid that, the booker or the traveller will be directly contacted by the hotels, resp. the reservation systems, it is now possible to transmit a fixed phone number and / or e-mail address for the hotel booking.

This can be, for instance, the contact data of a central travel office, which will process the requests, in case a contact is necessary.

HOTEL

II. Further Hotel Filters

Functionality Area	Hotel Booking	
New Functionality	Further Filters By Equipment Characteristics	

Description:

Starting now, further filters by equipment characteristics for the hotel search result list stay at your disposal.

- Parking place
- Restaurant
- WIFI
- Certified Hotel (actually only for the provider CRC)
