GENERAL

I. Notification Management – Usage For Car Bookings

Functionality Area	Notification Management	
New Functionality	Usage For Car Bookings	

Description:

The notification management has been extended, so it can now also be used for car bookings. Supplementary attachments like e.g. (internal) usage terms and conditions for car bookings or general car rental bookings can be sent to the traveller and/or booker together with the booking confirmation.

GENERAL

II. Extension Location Proposal For Company Locations In The Close Vicinity

Functionality Area	General
New Functionality	Company Locations Display On The Map

Description:

When entering a city, proposals will automatically be submitted. In case this functionality is active, also company locations situated in the close vicinity will be shown. If e.g. a search for Frankfurt is started, also cities like Hanau or Offenbach will appear, as long as company locations exist here. It is also possible to setup in the administration the radius for the search by an airport or a rail station.

FLIGHT

III. Preferred Airline Functionality Extension

Functionality Area	Flight Booking	
New Functionality	Preferred Airline Display If Available	

Description:

The preferred airline allows to prefer a certain airline on a specific routing, so that only this airline will be displayed. In case this is not available, it is possible to administrate this using a supplementary configuration, so that next to the wished airline, also all the others will be inquired.

Single airlines can be defined as preferred. In case the certain airline is not available at the time moment of the inquiry, alternative offers will be displayed.

Example Emirates:

RAIL

I. NVS - No BahnTix For Tickets Purely Abroad

Functionality Area	Rail Booking	
New Functionality	Rail Bookings Abroad No Longer Supported	

Description:

Pure intern rail connections abroad could have been booked so far exclusively as BahnTix via the NVS interface. Due to the fact that, there is no longer the possibility to get these tickets at a DB maschine, such bookings will not be supported anymore.

HOTEL

I. Extension Of The Interface For Importing Hotel Bookings

Functionality Area	Booking Import	
New Functionality	Import Hotel Bookings From Third Party Systems	

Description:

The interface for importing conference and hotel bookings has been extended.

Further possibilities for identifying the travellers and assigning the bookings to existing onesto orders stay now at your disposal.

Moreover, further fields were implemented (among others, detailed breakdown of the price, meals, payment method) and can now be imported in onesto.

The data transmission can be started by the user either as server call or per link. After the successful transmission it is possible to book via onesto e.g. the journey to arrive to a conference.

For the usage of the interface please turn to your onesto contact person.

HOTEL

II. Company Credit Card Or VISA For Hotel Bookings

Functionality Area	Hotel Booking	
New Functionality	CVC Code Inquiry For Mastercard or VISA Usage	

Description:

Starting with this new functionality, we allow the use of a Mastercard or a VISA Card as company credit card for hotel bookings, similar to flight bookings. In case a hotel provider requests a CVC code, the user must enter it.

Credit card

Payment card	VISA ...1111	CVC-Code	<input type="text"/>
---------------------	--------------	-----------------	----------------------

It is important therefore, that the user knows and is allowed to use the CVC Code. The saving of the CVC Code in onesto is not possible.

HOTEL

III. Advance Booking Limit For Hotel Contingent Bookings

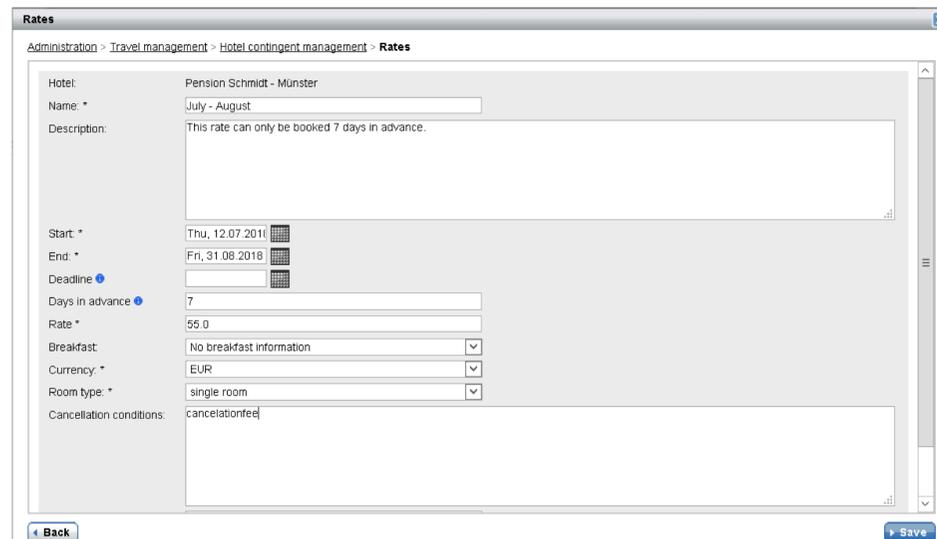

Functionality Area	Hotel Booking	
New Functionality	Enter Advance Booking Limits	

Description:

For hotel contingent bookings via onesto, it is now also possible to enter advance booking limits for the hotel rates. The advance booking limit can be individually set per rate in days in the administration.

Example:

The displayed rate can be booked up to 7 days prior to arrival. In case of a short term inquiry within the advance booking limit, the rate will not be offered.

The screenshot shows the 'Rates' administration interface. The breadcrumb trail is: Administration > Travel management > Hotel contingent management > Rates. The form contains the following fields:

- Hotel:** Pension Schmidt - Münster
- Name ***: July - August
- Description:** This rate can only be booked 7 days in advance.
- Start ***: Thu, 12.07.2018
- End ***: Fri, 31.08.2018
- Deadline**: (empty)
- Days in advance**: 7
- Rate ***: 55.0
- Breakfast:** No breakfast information
- Currency ***: EUR
- Room type ***: single room
- Cancellation conditions:** cancelationfee

Buttons for 'Back' and 'Save' are visible at the bottom of the form.

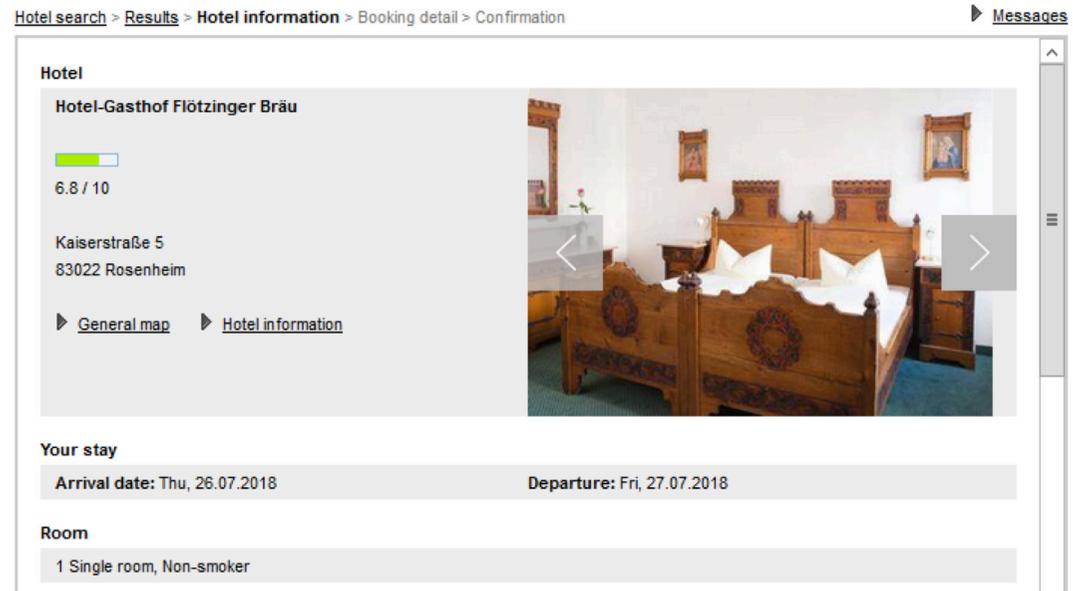

HOTEL

IV. Continuous Scroll Arrows Display For Hotel Photos

Functionality Area	Hotel Booking	
New Functionality	Scroll Arrows Display	

Description:

The scroll arrows for the navigation in the hotel photos will now be continuously displayed. For the user it is easier now to recognize when more photos are included in the view.

HOTEL

V. New CRC Provider Logo

Functionality Area	Hotel Booking	
New Functionality	New Logo CRC	

Description:

The hotel portal CRC has a new logo, which is also taken over in onesto.

 HOTEL

VI. Extended Booking Functionalities Via Corporate Rate Club (1/2)

Functionality Area	Hotel Booking	
New Functionality	Fellow Travellers Booking Via CRC	

Description:

The extension allows the booking of more rooms by entering the fellow travellers in one order.

Hotel search > Results > Hotel information > Booking detail > Confirmation Messages ⓘ

City: Berlin

Street: Zip code:

Radius (in km): 10

Arrival date: Tue, 13.11.2018 Departure date: Wed, 14.11.2018

Late arrival

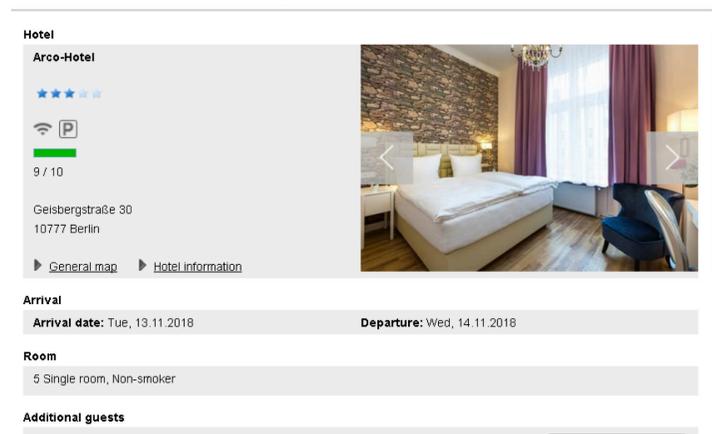

Remark:

Number of rooms: 5

5 Single room, Non-smoker

Additional guests

No other guests

HOTEL

VI. Extended Booking Functionalities Via Corporate Rate Club (2/2)

Functionality Area	Hotel Booking
New Functionality	Fellow Travellers Booking Via CRC

A window will open to enter the names of the guests:

Take over guests names ✕

Salutation	First Name	Surname
1. Mrs.	X	Buider
2. Mr <input type="text" value="v"/>	<input type="text" value="Klaus"/>	<input type="text" value="Online"/>
3. Mr <input type="text" value="v"/>	<input type="text" value="Peter"/>	<input type="text" value="Online"/>
4. Mr <input type="text" value="v"/>	<input type="text" value="Paul"/>	<input type="text" value="Online"/>
5. Mrs <input type="text" value="v"/>	<input type="text" value="Anja"/>	<input type="text" value="Online"/>

After entering and saving the names, these will be taken over in the system, they will appear on the itinerary and will be transmitted to the hotel provider:

Additional guests

Mr Klaus Online, Mr Peter Online, Mr Paul Online, Mr Anja Online

It is not possible to guarantee an availability for more rooms, resp. this depends on the hotels / provider information.

 HOTEL

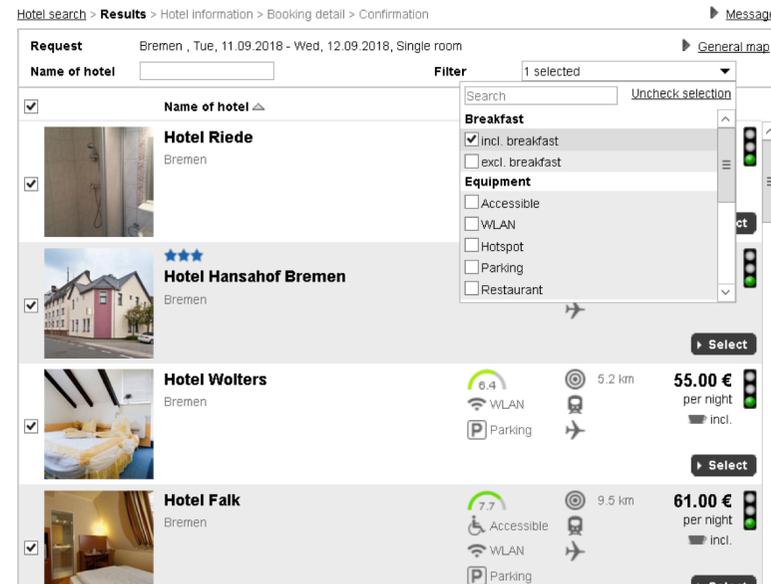

VII. Administrative Prefill Incl. Or Excl. Breakfast

Functionality Area	Hotel Booking	
New Functionality	Prefill Incl. Or Excl. Breakfast	

Description:

The extension applies to all providers and allows, via an administrative prefill, to filter the hotel rates with or without breakfast.

In case the filter possibility including or excluding breakfast is active, the search result list will consider the respective hotels, see here including breakfast:

Moreover, the booker has the possibility to manually change the filter selection and to limit, in this way, the display of the hotel rates at the ones excluding breakfast.

RENTAL CAR

I. Car Pool – Terms And Conditions For The Usage

Functionality Area	Car Pool Booking	
New Functionality	Terms And Conditions Confirmation	

Description:

When booking a car out of the onesto car pool administration, the user receives now a check box to confirm the terms and conditions for the usage. In the advice text it is possible to include a link to a document.

Equipment

* = mandatory field

In case this is not confirmed the booking cannot be performed:

RENTAL CAR

II. Car Pool – Information E-Mail Prior To Collection

Functionality Area	Car Pool Booking	
New Functionality	Information E-Mail About The Upcoming Collection	

Description:

In the area of car pool bookings, a new functionality has been developed. This sends an information e-mail at a defined time prior to the booked car pool rental. The subject, the text and the recipients of the e-mail are configurable (e.g. traveller and / or booker).

RENTAL CAR

III. Avis – Maximum 27 Days Rental Duration

Functionality Area	Car Rental Booking
New Functionality	Maximum 27 Days Rental Duration

Description:

The provider Avis allows a car rental of maximum 27 days. This has been implemented now in onesto, so that bookings for longer time are not possible.

RENTAL CAR

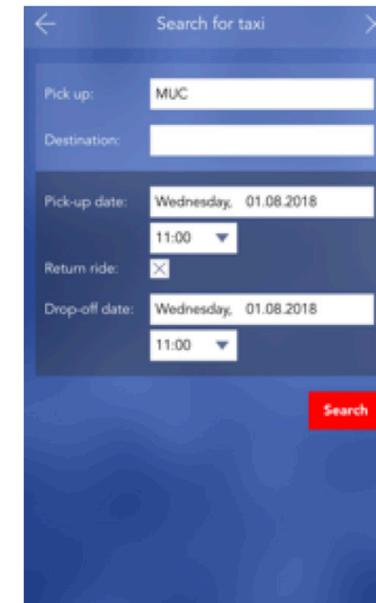

IV. Booking Of Taxi And Saloon Service Via onesto2go

Functionality Area	Car Booking	
New Functionality	Booking Of Taxi And Saloon Via onesto2go	

Description:

The booking of taxi and saloon services stays now in onesto2go at your disposal. Herewith it is now possible to book Talixo and Sixt mydriver, while being on the way.

Taxi and saloon service will be offered as separate means of travel:

RENTAL CAR

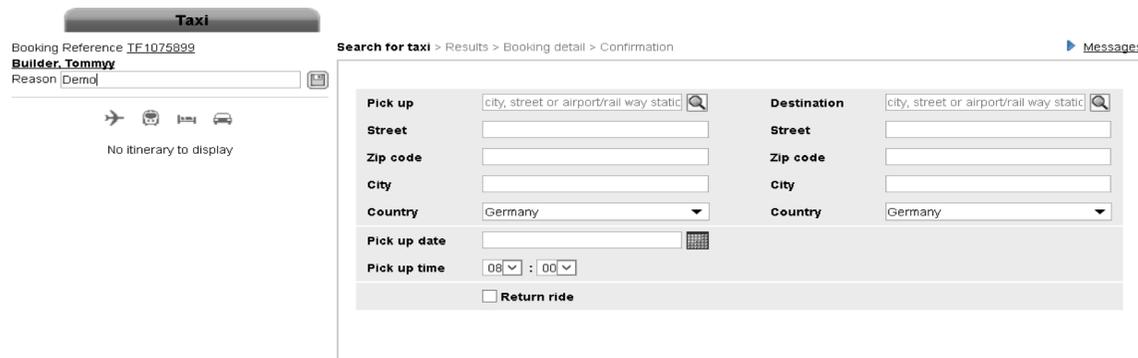

V. Booking Of Taxi And Saloon Service As Separate Means Of Travel

Functionality Area	Car Booking	
New Functionality	Separate Tab Display Of Taxi And Saloon	

Description:

Taxi and Saloon Services (Talixo / Sixt mydriver) can be now booked in a separate tab.

The user can herewith distinguish between the classic car rental and taxi / saloon service and can decide for the preferred mean of travel.

ONESTO2GO

I. Simplified Activation onesto2go

Functionality Area	onesto2go	
New Functionality	Simplified Activation Process	

Description:

For the usage of the onesto2go app, an activation through the user in his/her onesto profile in onesto Customer has been, so far, necessary. Starting with this release, this step is dropped. After downloading it from the respective app store, the login data in onesto2go (user name and password) can directly be used, as known from the login in onesto Customer.

In the profile, in onesto Customer, the possibility to assign a new onesto2go password stays further at your disposal, in case this is necessary later on.

As previously, the app must be activated in general on the company level, prior to its usage.
